MARK ONE ELECTRIC

October 1, 2007

Matt Zackus
Mark One Electric Co., Inc.
909 Troost
Kansas City, Missouri 64106

Dear Matt,

Seton Center staff wishes to thank everyone from Mark One Electric who played such an important role in the renovation of Seton's Alternative High School. A special thank you is included for Andy who did a superb job and was a joy to be around.

Generous donations of time and materials made by Mark One Electric assured the success of the remodeling project. Your electrical work made computers in each classroom a reality for our students and the joy was apparent in both teachers and students as they arrived to begin the new school year.

Thank you for your support of Seton Center and for your concern and interest in providing an inviting environment for our at-risk youth.

Sincerely,

Sister Loretto Marie Colwell, SCL
Executive Director
